

18 Spectrum Splitter Test

Overview

Use the Internet speed test to see how your current Internet or WiFi connection measures up. A splitter is a device used to split a cable signal between two or more devices. If you need to connect a modem and receiver to the same cable outlet, use the splitter and additional coaxial cable that's included in your Express Connect Kit. You can post for technical support, advice, or just to vent. Does Spectrum offer a list of supported cable signal splitter/amplifiers, or can anyone recommend those that work well for larger scale scenarios?

Bought a Leviton 47693-16P 1x16. Join us in providing the world's most accurate speedtest platform. How Much Speed Do You Need?
