

## **CAD Fiber Optic Cable Routing**

### **Overview**

This course teaches you how to design Fiber-to-the-Home (FTTH) networks using QGIS and AutoCAD. You will learn fiber optic network planning, outside plant (OSP) design, routing, cabinets, splitters, and real-world FTTH workflows. Our expert OSP Network Designers in FTTH, FTTx designs and standards enables us to provide top quality services to EPC companies all over the world. For New Network builds, we have experience ranging from Single and Multi-dwelling Units, Commercial Units FTTH Fibre-to-the-Home networks, Outside. Be among the first to receive important product updates, insights and news. This article explores how CAD drawing software is applied across key areas of the fiber optic.
