

Cable tray towards mouth

Overview

Solid-bottom trays provide continuous shielding against electromagnetic interference (EMI), making them ideal for sensitive circuits like data and control cables. However, this design can trap heat, reducing cable ampacity by 20% to 50%. How can we improve?

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Over the past 55+ years, MP Husky US Cable Tray has engineered and manufactured the most reliable, highest quality, cost effective and innovative cable trays systems. Hubbell's NEXTFRAME® Ladder Tray is the effective and widely used cable runway that supports and delivers bundles of cable between cabinets, racks, and closets, along walls, and suspended from ceilings. The Ladder Tray features light, rugged, tubular steel construction. Each cable tray type performs a different function and comes in various materials such as aluminum. ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia.
