

# Delivery Date 1G Optical Network Switch

## Overview

These transceivers are engineered for long-distance applications, supporting distances from 10 km to 180 km depending on the model and wavelength. They are compatible with a variety of networking devices, including those from Cisco, and are available with LC Duplex and LC Simplex. 1G SFP optical transceivers offer dependable, high-quality connectivity solutions widely used in various networking environments. These compact and hot-pluggable modules efficiently convert electrical signals into optical signals, ensuring seamless data communication across diverse applications. This ultimate guide is designed to provide a comprehensive, practical, and vendor-neutral framework for 1G SFP module selection. Whether you are planning a new network deployment, upgrading an existing infrastructure, or sourcing compatible optics as an alternative to OEM modules, this article will.
