

EMS upgraded version for communication sites available now

Overview

To use the new categories, customers must upgrade their Fortinet products to one of the following versions: FortiManager - Fixed in 6. FortiClient - Fixed in Windows 7. When a later patch of the current EMS version is available, by default, EMS schedules an upgrade at a date between 45 to 52 days in the future. Upgrades to the latest version are distributed over a week to ensure that Fortinet can minimize the impact of any issues and resolve them without affecting. FortiClient EMS 7. 5 fails to recognize the newly issued April 16, 2026 Digicert CA used by FortiGuard Anycast servers, which results in failed communication for the signature and engine updates and auto-upgrade. See CSB-260303-1 for more information. 5 or later do not support FortiManager. See the newest updates to iMIS EMS like registering for free events without using the cart, processing recurring payments on a specific date, and more. We love. The following topics provide information about upgrading EMS: The following topics provide information about upgrading EMS: Fortinet has updated its web filtering categories to v10, which includes two new URL categories for AI chat and cryptocurrency websites. 2. de from earlier versions. You can only migrate EMS of specific 7.
