

German company selling electronic optical modules

Overview

VI Systems GmbH (VIS) develops, produces, characterizes, and markets energy-efficient optoelectronic components (vertical cavity surface-emitting lasers, photodetectors, and associated assemblies) for ultrafast data transmission with target speeds of 400 Gbps per channel over single-. VI Systems GmbH (VIS) develops, produces, characterizes, and markets energy-efficient optoelectronic components (vertical cavity surface-emitting lasers, photodetectors, and associated assemblies) for ultrafast data transmission with target speeds of 400 Gbps per channel over single-. For over 30 years, lasers have been our home. IMM Photonics provides customized optical and optoelectronic components tailored to customer needs. Our optical expertise for your success. The precision of our. Domiciled at the prestigious science hub of Berlin Adlershof, AEMtec GmbH specialises in the development, industrialization and manufacture of complex micro- and optoelectronic modules and even complete systems. As an established B2B company for complex and reliable solutions in the field of. Expertise in optical measurement technology and network measurement technology. Our special strength lies in the interaction of the availability of standard products, the high flexibility and the application-oriented implementation of.

Article Content

Lasers are our home – IMM photonics

IMM Photonics provides customized optical and optoelectronic components tailored to customer needs. Consultation, design, development, and manufacturing all from one source—made in Germany.

OEC GmbH

Unser Sortiment umfasst eine riesige Auswahl an Detektoren (GaN, SiC, UV-Si, Si, Ge, InGaAs, Extended InGaAs, PN).

Optical modules

Pulsar Photonics develops and builds complex optical systems for laser material processing. Based on our modular system for beam guidance, beam shaping, optics, actuators and software, machine ...

Laser Components

Welcome to LASER COMPONENTS Germany. We manufacture and distribute components for the photonics industry. Our product range extends from optical to optoelectronic components - we also ...

Optical module Wholesaler Germany | B2B companies and suppliers

We are your specialized B2B supplier of high-quality installation materials and modern automation technology in the field of electrical engineering and electronics.

GD Optics | Think small

GD Optics is one of the leading protagonists in the production of optical components for high-tech applications. With us, innovative strength endures and stands in a holistic context.

Products and Solutions | Jenoptik

Our range of products comprises standard components, modules and subsystems through to complex systems and production lines. It further includes total solutions and full-service operator models. ...

Optoelectronic | Neumüller Elektronik

In the field of optoelectronics, we offer probably the broadest product portfolio of optoelectronic components, modules and systems in Germany.

Contact Us
