

Haiti s fireproof cable trays have a good reputation

Overview

Made from carbon steel, these trays offer exceptional strength and high fire resistance due to steel's inherent non-combustible properties. Fire resistance is a key factor when selecting cable trays for areas where fire hazards are present. Electrical fires can spread rapidly through the cables within a tray system, which is why choosing the right material for your cable tray is paramount in reducing the risk. Materials like steel. Jeetmull Jaichandlall (P) Ltd. We believe in building fruitful business partnerships. This evolution is shaped by several key market dynamics. These trays are engineered to withstand high temperatures, resist flame propagation, and maintain structural integrity during fire. We, one of the well-known Cable Trays Manufacturers in Haiti, offer top-notch trays that keep your electrical system organized and protected.
