

High-precision independent switches for airports

Overview

Robust and intuitive piezo-based switching solutions and keypads – from cockpit access panels and emergency call buttons to window shade controls – are built to withstand harsh climate conditions, vibration, extreme temperatures or changes in atmospheric pressure. Interface solutions for airport passenger systems. Check-in kiosks, gate readers, baggage drop terminals, and wayfinding systems are touched by thousands of international travelers daily. Every failure affects flight operations. The interface. At Flame Enterprises we specialize in supporting the Mil/Aero marketplace with an extensive offering of switches. We are prepared to assist you with all your switch requirements with industry leaders in manufacturing, Safran Electrical & Power, Honeywell, Electroswitch, Nexus, Korry Electronics. Cole Instrument is an industry leader in producing switches that answer the exacting demands of the engineer and the end user. Cole switches provide the highest quality and service life for a wide range of aerospace needs, while ensuring the best possible “feel” for pilots in commercial and. Barantech's quality engineering and designs are geared to provide maximum safety and security for the aviation industry in the air or on the ground. Our. We offer proximity and photoelectric sensors, limit switches and safety switches, and RFID and operator safety devices.

Article Content

For Aerospace Applications

Cole switches provide the highest quality and service life for a wide range of aerospace needs, while ensuring the best possible “feel” for pilots in commercial and military situations.

Aerospace and Defense Product Range Guide

Our position sensors, sealed, basic, limit, and thermostatic switches are found on a wide range of commercial and military aircraft and carry Parts Manufacturer Approval (PMA) and Mil-Spec ...

Products & Services | Force Switch Corp.

At Force Switch Corporation, we specialize in precision measurement and control devices, including aircraft switches, transducers, and load cells. Additionally, we collaborate with customers to design ...

Sensors and Switches

We provide reliable, flexible, high-performance sensors and switches. We offer one of the broadest line in the industry including proximity and photoelectric sensors, limit switches and safety switches, and ...

Switches

Each switch design is optimized for your particular application by using the appropriate switch mechanism. Options include contact-less, extended-life, snap-action, tapered, and limit switch versions.

Aviation Switch Products | ITT Aerospace

Find the perfect aircraft switch for your application. Our innovative designs ensure reliability and safety in the most demanding aviation environments.

Piezo Switches for Airports and Terminals

Solid-state controls for airport infrastructure, self-service check-in, and terminal equipment. Heavy use tolerant, vandal resistant, sealed.

Aviation Switches Manufacturer | Custom Premium solutions.

Robust and intuitive piezo-based switching solutions and keypads – from cockpit access panels and emergency call buttons to window shade controls – are built to withstand harsh climate conditions, ...

Switch Manufacturer | Select Controls

Leading switch manufacturer for aerospace and military needs. Custom, durable switches from Select Controls. Get a quote now!

Skyworks | Products

Skyworks Solutions offers a select group of radio frequency (RF) switches from our diverse switch offering that are in stock and ready for immediate design.
