

Honduras telecommunications tower inspection fees

Overview

Pricing for inspection services is based upon the client's specifications, the number of towers to be inspected or mapped and the site's location. Identify the number of hours, including travel time that the project will take and multiply it by an average charge of \$65. 00. As a cost efficient procedure, oftentimes the inspection contractor will be required to provide minor maintenance services as they are observed. The Scoping Study assessed levels of data publication in line with the CoST Infrastructure Data Standard (CoST IDS), which requires the publication of 40 data points, or 'items', across the. Get exactly what you need—no long-term contracts or recurring software fees. Create accurate 3D models of towers and ground assets.
