

Installation price of trough-type grating cable trays

Overview

The price of FRP trays can range from \$10 to \$50 per meter, depending on the specifications such as size, design, and environmental factors. For bulk orders or project pricing, the cost can be significantly lower. The main cost driver is the material used in manufacturing: Galvanized steel is the most common. For the best experience on our site, be sure to turn on Javascript in your browser. In the world of cable management, the trough type cable tray stands as a versatile and robust solution for supporting and protecting electrical and data cables. Its unique design, featuring a solid bottom and side rails, makes it ideal for a wide range of applications, from industrial plants to. The cable trays, rather than piping, may save 40 to 60 percent of the entire budget. During my time working on construction sites, I have observed the amount of time that goes to waste in an attempt to insert a heavy piece of wire through a pipe with a bend in it.
