

Manufacturer of 1000mm deep cold aisle wiring channels for low voltage cables

Overview

ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing). Raceways are enclosed channels of metallic (rigid steel or aluminum) or plastic (PVC or HDPE) materials designed to hold, hide, and protect wires and cables you don't want hanging and exposed out on walls or ceilings. Cable Raceways can be installed below the floor, above the ground, along a wall. Whether you're working on a new build or a retrofit, our cable raceway Design and Specification Center provides the tools and insights you need. From detailed models to installation videos and technical literature, we've gathered the most essential resources to support your design and specification. Supplier highlights: This supplier is both a manufacturer and trader, exporting mainly to the United States, Spain, and Guyana. They provide quality control, full customization, design customization, and sample customization, along with product certifications. The positive review rate is 97.
