

Nicaragua Terminal Box 6-core Specifications and Models

Overview

This terminal box terminates up to 12-24 fiber optic cables, offers spaces for splitters and up to 12-24 fusions, allocates 6 x SC Duplex adapters or 6 x LC Quad adapters and working under both indoor and outdoor environments. It is a perfect cost-effective solution-provider in the. * FTTH network and CATV system application * Outdoor & Indoor used, IP65 sealing standard Waterproof. * Light weight, small size, easy installation * Provide splice protection of fiber cable and pigtail * Made of engineer plastic, it is of nice shape. * Suitable for SC, FC or LC adapter * No need. Optical distribution box as the most advanced FTTX network distribution node equipment, provide quick and reliable connection, good protection and management for the FTTX network. Advanced structure design, Small size and reasonable structure. The HTB8009 6 Ports FTTH Termination Box is a compact, multi-functional distribution enclosure specially designed for final fiber termination at the user end in fiber-to-the-home (FTTH) applications. Created for game-changing operational efficiency with built-in security and resiliency, the 6300 switches provide the foundation for high-performance networks supporting IoT, mobile and cloud applications.
