

Price of Smart Micro-Modules in Asia

Overview

According to Cognitive Market Research, the global Cellular IoT Modules market size was estimated at USD 4152.08 million in 2024 and will grow at a compound. Does this tracker contain the latest IoT module models launched in QX 2025?

Yes, this tracker has been updated in Q2 2025 and includes the latest IoT modules launched (if applicable). Does this tracker cover information on the industry verticals?

Yes, it includes 16 industry verticals (Building & Micro Modular System Market market was valued at 1545 million in 2024 and is projected to reach US\$ 2610 million by 2032, at a CAGR of 8.2 billion in 2026 to over USD 12-15 billion by 2035, driven by AR/VR headset proliferation and automotive HUD adoption. OLED-on-Silicon (OLEDoS) dominates the technology segment with roughly 55-60% of regional. The Asia Pacific region is experiencing a rapid surge in demand for intelligent micro module data centers, driven by the exponential growth of digital infrastructure, cloud computing, and IoT deployment. As businesses seek scalable, energy-efficient, and agile data solutions, micro modules offer a. The dominance of LTE Cat. 1 bis and China/India volume means global device makers will increasingly align hardware roadmaps and certifications to these ecosystems. Rapid industrialization and growing smart city projects are expected to aid the sales to USD 5359.

Article Content

Smart Module Market Trends & Growth Analysis 2035

- Regionally, the Asia-Pacific region is expected to dominate the smart module market, fueled by rising investments in renewable energy sources, governmental incentives, and a growing ...

Cellular IoT Modules Market Outlook 2025-2026: Strong Growth in ...

The cellular IoT modules market is set for strong 2025 growth with 23% shipment increase, driven by China, India, and LTE Cat.1 bis amid pricing and supply challenges.

Asia Pacific Cellular IoT Modules Industry Report 2026 | Market Size ...

Asia Pacific is the fastest-growing region in the cellular IoT modules market, driven by rapid industrialization, increased investment in 5G networks, and expanding smart city initiatives.

Asia Pacific Intelligent Micro Module Data Center Market Key

The Asia Pacific intelligent micro module data center market is positioned at a pivotal juncture, driven by a confluence of technological innovation, regulatory support, and evolving...

Micro Display Market in Asia-Pacific | Report

The Asia-Pacific Micro Display market encompasses the design, fabrication, and integration of miniature display panels—typically under 2 inches diagonally—used in near-eye and ...

Micro Modular System Market 2025

Rapid industrialization and digital transformation make Asia-Pacific the fastest-growing market for Micro Modular Systems, with China, Japan, and India leading the charge.

APAC Smart Manufacturing Market

The Asia-Pacific smart manufacturing market is therefore widening its customer base, compelling providers to price in local currencies, offer remote onboarding, and embed multilingual ...

Asia Prefabricated Data Center Modules Market Size and Forecasts ...

The Asia Prefabricated Data Center Modules Market is expected to grow from USD 480 million in 2025 to USD 1.32 billion by 2031, expanding at a CAGR of 18.2% during the forecast period.

Global Smart Module Market Research Report 2024

Asia-Pacific market for Smart Module is estimated to increase from \$ million in 2023 to reach \$ million by 2030, at a CAGR of % during the forecast period of 2024 through 2030.

Global Cellular IoT Module and Chipset Market Tracker & Forecast

In-depth look at the quarterly market for cellular IoT modules and chipsets. Includes over 6.9 million data points, that allow for detailed drill-down options per region, technology, industry, and ...
