

# Reseller of Enterprise-Grade 400G Optical Routers

## Overview

We help you merge routing and optics into one simple layer by placing powerful 400G ZR/ZR+ transceivers directly into your routers. This lets you remove entire racks of expensive equipment, freeing up your budget, space, and power for what matters most: delivering exceptional. The AGR560 is a high-performance 400GbE aggregation router that consists of fixed 12 x 400G QSFP-DD (23 W) and 24 x 100G QSFP28 (6.5 W) network interfaces in a 2RU compact design that can be deployed as a standalone router. The AGR560 is engineered with the Broadcom StrataDNX™ Jericho2c+ silicon. Only Juniper can help you unleash the full potential of Wi-Fi 7 with our AI-Native platform for innovation. In the latter application, the 400G transceiver is combined with single-lambda 100G transceivers that match the wavelength and optical performance of the 400G. Find out how Cisco Routed Optical Networking can reduce your network CapEx, energy consumption, footprint, and labor costs. Discover the economic benefits of routed optical networks for DCI, metro, and long-haul applications. Reduce your CapEx up to 60% by simplifying your network transport with. Open networking meets Open ZR/ZR+. Simplify optical transport management, reduce power consumption, and save space with IP Infusion 400G ZR/ZR+ IPoDWDM solution.

## Article Content

### S9710-76D

The UfiSpace S9710-76D is a high density 400G open and disaggregated router capable of deploying a 691Tb routing cluster at the edge and core network.

### Wholesale Optical Transceivers Module | 100G QSFP28, 40G QSFP+ & 400G ...

Shop high-speed optical transceivers from Unitekfiber. We offer 100% compatible 40G, 100G, and 400G QSFP-DD modules for data centers. Expert technical support & wholesale pricing.

### Cisco Routed Optical Networking

Find out how Cisco Routed Optical Networking can reduce your network CapEx, energy consumption, footprint, and labor costs. Discover the economic benefits of routed optical networks for DCI, metro, ...

### HPE Networking routers: High-performance, programmable, and ...

From AI supercomputing to secure networking and hybrid cloud infrastructure, our enterprise-grade product portfolio powers some of the most ambitious organizations on the planet, in industries ...

### 400G IPoDWDM Open ZR/ZR+ Switches and Routers IP Infusion

We help you merge routing and optics into one simple layer by placing powerful 400G ZR/ZR+ transceivers directly into your routers. This lets you remove entire racks of expensive equipment, ...

### 400G & 800G Solutions | HPE Juniper Networking US

Choose from new price-performance options on merchant silicon in our 400G and 800G switches and routers to reach new benchmarks of performance and functionality.

### 400G Solutions

For the most demanding environments the 400G routing and switching platforms provide flexibility and choice for large scale cloud, leaf and spine, routing transformation and hyperscale IO intensive ...

### 400G Optical Transport

We don't simply sell optical products; our experienced network infrastructure engineers will work with you to build your optical network holistically. We'll ensure that your optical configuration will work ...
