

Revit does not have cable tray accessories

Overview

This Revit tutorial walks through setting up cable tray in Revit MEP, covering essential tools and techniques for your projects. Welcome back to the CAD Teacher VDCI video course content for the BIM 321 course, Introduction to Revit MEP. Specific cable tray families are missing in Revit. They do not appear in the library. System families are predefined in Revit and saved in templates and projects, not loaded into templates and projects from external files. From industrial cable management systems to office environments, houses of worship, and even performance. Welcome ! The EAE Cable Tray plugin allows users to employ EAE Electric's cable tray products in their Autodesk® Revit® projects using the most up-to-date data. Materials and finishes available are mild steel pre galvanized as standard with mild steel hot dip galvanized after manufacture and stainless steel grade 1.
