

# Romanian Telecom Operator Lays Fiber Optic Cable

## Overview

ECI Telecom (NASDAQ:ECIL) announced today that it has signed a new multi-million dollar contract with the largest cable operator in Romania, RCS & RDS, for the upgrade and expansion of its optical network. Romania is set to bring high-speed internet to nearly 1,000 remote localities as part of a EUR 94 million investment under the National Recovery and Resilience Plan (PNRR). The network upgrade will enable RCS & RDS to provide triple play and other broadband services. The Romanian company's network now reaches 12. Telecom operator Digi invested 88 million euros in Spain in the first quarter of 2025. This figure has been earmarked for its plan to roll out state-of-the-art ultrafast fibre optic networks, which now serve 12. Established in 2007, Direct One is the pioneer neutral telecom infrastructure operator in Romania, providing bandwidth infrastructure services. With an investment of 94 million euros, the initiative involves the construction of 3,550 kilometers of fiber optic. The National Authority for Management and Regulation in Communications (ANCOM) has identified Digi Romania as a provider with significant market power in 6,288 localities in Romania, following the analysis of the market for local access services provided at a fixed location, at the level of.
