

ST3 Interface

Overview

The ST3 interface is based on a PIC16F84A that is programmed to interpret satellite position data in EASYCOM & GS232 format sent by the satellite tracking software running on your PC, to control rotor motors. Interface handles two basic servers: Easycom & Yaesu-GS232 at 19200bps. PROLIM is a leading PLM, Cloud and Industrial AI Digital Transformation solutions provider to Global Fortune 1000 companies. Solid Edge ST3 Advances the Future of 3D Design

Solid Edge ST3 completes the implementation of synchronous technology for all assembly applications, including tubing, piping, weldments, and frames. In doing so, Siemens has added support for ...

First Thoughts on Exploring Solid Edge ST3

First, I wanted to get the thoughts about ST3 down as fast as they were happening. Second, I wanted to focus on a single screenshot that captures the simplicity/complexity of Solid ...

STLINK-V3MODS and STLINK-V3MINI debugger/programmer ...

The STLINK-V3MODS tiny probe provides a proprietary USB interface allowing the communication with an STM32 target with several protocols: SPI, I2C, CAN, UART and GPIOs.

Solid Edge ST3

While it's not the leap that existing users saw in the first ST release with the move to the Windows "Fluent" interface, nevertheless, in ST3 Siemens has listened to its users and made several ...

Solid Edge ST3 Interface Enhancements

There is still some fantastic ST3 technology that we still cannot talk about until the official launch announcement from Siemens. But, over the next few weeks, we'll cover some of the more high level ...
