

Saudi Solar PV Project Distribution Box Manufacturer

Overview

Our Solar DC Distribution Boxes are designed to safely manage and distribute the direct current (DC) generated from solar panels to inverters and other connected equipment, ensuring smooth energy flow while offering complete protection for the entire solar setup. Kesher Automation is a leading manufacturer and exporter of Solar DC Distribution Boxes in Saudi Arabia, providing dependable and efficient solutions for solar power systems. Add to that the need for other building materials—from wall panels to kitchen appliances—and the logistics become overwhelming. That's where. Our in-house team includes 50+ highly skilled engineers and technicians. We provide full EPC (Engineering, Procurement, Construction) Through direct partnerships with premium brands Jinko and Huawei, we ensure top-tier components at competitive prices, delivering excellent ROI and system lifespan. Saudi Arabia has invested heavily in infrastructure construction and industrial development in recent years, leading to a continuous increase in demand for electrical equipment such as power distribution boxes for construction sites. Their commitment to sustainable energy and.
