

# Senegal Thermal Channel Intelligence

## Overview

Explore Senegal's environmental data — FloodWatch for Casamance and Dakar, MineWatch across the Kédougou gold belt, CropWatch for the groundnut basin, and HeatWatch for Dakar, Saint-Louis, and Touba — powered by satellite imagery. Peak rainfall—loading. Peak crop. The presidential election has been postponed to March 24th. Despite high concentration with a high Herfindahl-Hirschman Index (HHI), the market showed steady growth with a Compound Annual Growth Rate (CAGR) of 10. The development of Senegal's energy sector is at the heart of the country's strategy for sustainable and economic development and aspiration to become an emerging economy by 2035 under the Plan Sénégal Émergent (PSE). With strong institutions and a clearly articulated vision to pursue sustainable. Senegal has rapidly increased its renewable capacity, in large part to decrease historical dependence on expensive and polluting liquid fuels. The country pledged to source 30% of its generation capacity from renewables by 2030 — and has made tremendous progress over a short time period. Senegal. The climate finance issue was emphasized during the 26th United Nations Climate Change Conference in Glasgow (COP26), resulting in the formation of the Just Energy Transition Partnership (JETP). This initiative emerged following a commitment of \$8. 5 billion by France, Germany, the United Kingdom.
