

Specifications and dimensions of outdoor machine rooms made of color steel plates

Overview

Instead build fabricated enclosures and sheet metal cabinets from scratch to your exact specifications and requirements. Tell us what you need: metal type, any UL or NEMA ratings, door access requirements, location of controls and push buttons, final dimensions, and service. Andersen Industries designs and manufactures custom boxes, cabinets, enclosures, large complex custom engineered walk-in style enclosures, equipment and control houses, containers, housings, frames, rooms, and other large fabrications and assemblies. These modular enclosures are ideal for overseeing machinery, managing facility access, or creating private. When you need an exterior enclosure to house control equipment and provide a comfortable working environment for personnel, rely on Porta-King to custom-design a prefabricated control room for your facility.
