

Sudan Telecom Fiber Optic Cable Cut

Overview

Networks are still down in parts of Kassala, New Halfa, El Gedaref, El Obeid, En Nahud, and areas across Red Sea state, in addition to large parts of Sennar, White Nile, and El Gezira states, for the second day in a row due to the disruption of fiber optic cables in the Haiya. Networks are still down in parts of Kassala, New Halfa, El Gedaref, El Obeid, En Nahud, and areas across Red Sea state, in addition to large parts of Sennar, White Nile, and El Gezira states, for the second day in a row due to the disruption of fiber optic cables in the Haiya. The Internet shutdowns in Sudan refer to a series of nationwide and localised disruptions to internet and telecommunications services in Sudan since the onset of the civil war in April 2023 between the Sudanese Armed Forces (SAF) and the Rapid Support Forces (RSF). In November 2025, Sudan. An expert and former official in the Sudanese Communications Authority revealed that the Rapid Support Forces have ordered two major communication companies, Sudanese and MTN, to disconnect communication and internet services for 36 million subscribers in the country. Speaking at a panel discussion in Addis Ababa, on Tuesday, Makuei said the new. Cable outages attributed to heavy rains and flash floods in the Haiya area of Sudan's Red Sea state, have continued across much of the country for the second day in a row. The 15,000-kilometer PEACE cable suffered damage spanning approximately 1,450 kilometers from Zafarana, Egypt, to Singapore, with a.
