

## Western European Intelligent Power Distribution Cabinet Processing Manufacturer

### Overview

High-end machines like Perforex MT 2201 S, Secarex AC 18, and CW 120 M by Rittal enable a high degree of automation in processing enclosures, DIN rails and busbars. EPLAN ensures seamless data transmission between systems. DKC offers a comprehensive range of solutions for all types of electricity transport and distribution systems. Established in 1998, DKC Group has become a leading manufacturer of cable tray systems and energy protection, transport and distribution solutions for civil and industrial infrastructures. However, Electrical-Cabinet Construction not only covers designing and constructing the cabinets themselves, but also includes other tasks according to your individual project demands. Whether a large-scale automation project or a single order - at Mack Automation we take care of custom-made. EPLAN offers a software solution for various engineering disciplines - with direct online access to product catalogs from leading manufacturers. It supports comprehensive planning, downstream process steps and fully customized 3D cabinet configurations (Digital Twin), ensuring efficient execution -. At SI-API Automation, we specialize in the design and manufacturing of electrical panels for industrial machinery, tailored to the technical and regulatory requirements of each project.
